

BOURG BOOK LOADER

BBL (option for BB3002)

- The Bourg BBL Book Loader is an accessory upgrade to the BB3002 perfect binder. It allows the operator to load in less than six minutes up to 120 book blocks, load corresponding covers into the cover feeder, set job parameters and off you go. The system will run at maximum mechanical speed, leaving the operators free to focus on other tasks, from 15-30 min depending on the application and glue. BB3002 users have the most to gain: more operator flexibility, guaranteed production speed resulting in a fast return on investment.

FEATURES	ADVANTAGES	BENEFITS
Loading Tray	Load up to 160 books in 6 minutes	Operator takes 6 minutes to bind 120 books
Continuous book block feeding	Clamp feeds book blocks in to the binder	Run binder at full speed continuously
120 Pallets allowing variable thickness feeding	Easy to adjust pallets	Easy and fast loading of variable thickness blocks
Automatic barcode scanning (option)	Scan each book block and cover	Guarantees book integrity and automatically records jobs
Automatic Variable Thickness Feeding	Pallets of the BBL can be adjusted in order to load books of varying thickness from 1 to 60 mm (.04 - 2.36 in)	The binder binds variable thickness books without operator intervention
Automatic Barcode Scanning (Recommended Option)	Each book block and cover will be scanned in order to guarantee book integrity	Each job is checked in order to avoid reprints, also records each job for job tracking
Retrofitability is possible (check serial number as restrictions may applied)	Upgrade your BB3002 into a BB3102 with the Bourg Book Loader	Enjoy all the benefits of a BB3102

BB3002 BARCODE UPGRADE

FEATURES	ADVANTAGES	BENEFITS
Additional Touch Screen	User friendly industrial grade color touch screen.	Easy to use interface
Automatic Integrity Check	Cover to content matching	No manual job checking
Automatic Variable Job Processing (On-Demand Job)	No setup required Barcode tells the machine Job ID	No manual job setup
Real Time Statistics	Follow your production on Bourg touch screen or by connecting a computer, tablet or smartphone	No manual job recording Real time job tracking
Compatible with CMT 330 & CMT130	One barcode solution for your entire finishing line	Easy to use and fully automatic

■ Positioned as the optimal alternative to In-Line finishing, the BSF is a high volume sheet feeder designed to match today's market demands. Coupled with the capability of using trollies/carts/pallets from your printer, stacks of pre-collated documents – whether from digital color, digital monochrome, or from offset presses – can easily be fed into post-printing equipment.

■ Xerox iGen 150 (26")

■ HP Indigo Cart / Pallet 3500, 5000 and 7000 series

■ Xerox DocuColor DC 5xxx/6xxx/7xxx/8xxx

■ Xerox iGen 3, 4 (20.5")

■ Océ Varioprint 6000 series

■ Xerox ColorPress 800/1000

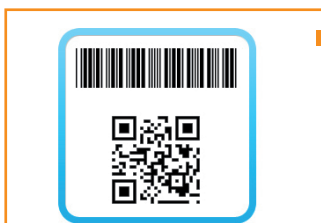

■ Xerox DocuTech & Nuvera DS5000 and DS3500 stackers

■ Kodak Digimaster High Capacity Stackers

BSF BARCODE UPGRADE

■ C.P. Bourg products can be equipped with the latest in barcode reading technology allowing your production to achieve record breaking efficiency.

FEATURES	ADVANTAGES	BENEFITS
